

About Us:

Fall City Farms is a small, organic farm located in Fall City, Washington that is committed to organic farming practices and providing high quality produce to our local community. Our farm has been around since 1981 and has evolved and transformed many times since it was founded. Our farming team is currently focused on growing our pickle operation, as well as a variety of vegetables, herbs and flowers that are primarily sold through farmers markets, our barn store and local food banks. We are also known for our pumpkin patch that serves as a family tradition for many returning customers. We take our role as stewards of the land seriously by using eco-friendly methods that prioritize soil health and biodiversity. Since we are located on the Snoqualmie river, we are Salmon-Safe Certified and are committed to sustainable practices that support the efforts to protect water quality and wildlife habitat on and around the farm.

Job Description 2025 Seasonal Field Crew:

We are seeking a motivated and reliable Farm Worker to join our small team on the farm for the 2025 growing season. The ideal candidate will have an interest in sustainable agriculture, be comfortable working outdoors in all weather conditions, and have a strong work ethic. As part of our team, you will play a key role in daily farm operations, including planting, harvesting, maintaining crops, and general farm upkeep.

Farming is physically demanding but also incredibly rewarding and full of variety! From planting seeds to harvesting fresh produce, the work keeps you active and engaged, offering a great workout while connecting you with the land. While you may be lifting, bending, and working in all kinds of weather, there's a unique sense of satisfaction in seeing your hard work come to life. Whether it's the thrill of a bountiful harvest or simply being outdoors, farming offers plenty of physical challenges — and a lot of fun along the way!

Primary responsibilities include:

- Seeding, transplanting, harvesting weeding, processing crops
- Irrigation management
- Greenhouse seeding & watering
- Pumpkin Patch maintenance
- General farm cleaning
- Other duties as assigned

Requirements:

- Valid Driver's License
- Able to repeatedly lift over 50lbs and enjoys physical labor
- Able to withstand repetitive motions while seeding and cultivating
- Able to walk, stand, squat, and kneel for extended periods
- Willing to work outside in all types of weather
- Appropriate farm clothing

Hours & Schedule: June – October

- 15-25 hours per week – We are currently looking for (1-3) part-time people
- 30 minute unpaid lunch break
- Monday - Friday (Full or Partial day)
- Days off must be agreed upon in advance by the Farm Manager

Compensation:

- Starting at \$18 per hour
- Produce and flowers, as available

Desired Skills (not required):

- Previous experience on a produce or flower farm
- Experience working on a small team
- Customer service experience
